

King of all book things is our dearest Mac  
He shares all his knowledge & 's a bit of a wack  
He's smart & he's charming and not only that  
He's the kind of a friend gives the shirt off his back

Prince Nathan, Mac's sidekick is cute and he's funny  
He's quick to assist and he loves to count money  
Rose always will organize all of our messes  
She stacks & she shuffles and never digresses

CHORUS

Maria's our go to for technical issues  
She makes us feel better with chocolate and tissues  
Louis is known by his voice full of gravel  
Historical questions he loves to unravel

Lovely Akankha has books on her brain  
We'd send her a thank you but can't spell her name  
Fran's great with the children, though thought she'd retired  
In kids & their doings she once more is mired

CHORUS

Leigh loves to laugh and she's very infectious  
When telling a story she leaves us all breathless  
Thank goodness for Lesley, she knows the computer  
We try on our own but must often recruit her

CHORUS FINALE

CHORUS

**When we're flustered, when we're crazy  
When we're all askew  
We simply remember our favorite folk  
Cuz where would we be without you**
